CULTIVATING COURAGEOUS CONVERSATIONS

POVERTY TRUTH LEEDS

Learning alongside Leeds Poverty Truth

What if there were conversations across Leeds that sought to address the causes and symptoms of poverty?

How should the wisdom of those who know poverty first-hand shape these conversations?

How might we cultivate courage, trust, and empathy so that we hear one another clearly and discover new possibilities together?

DATE: Tuesday 1st October 2024

TIME: 09:30 - 13:00 (arrivals, tea & coffee from 09.00)

WHERE: Age UK Leeds, Bradbury Building, Mark Ln, Leeds LS2 8JA

COST: £25 per person (limited spaces available)

Cultivating Courageous Conversations is an opportunity to explore these questions. It's for people who recognise that including the wisdom of those who struggle against poverty in decision making will make their organisation and/or community a healthier place. Throughout the session we'll explore the frameworks, techniques, and skills that help to enable deep conversations.

This learning space is a pilot session by Leeds Poverty Truth to explore whether some of what has been learnt through holding Commissions in the city might be beneficial to other organisations. Numbers are limited and all we ask is for feedback to help us learn how we might do this better in the future.
