HIGH STRIKER

A simple test of strength. Hit the plate with the hammer and try to ring the bell.

Being asked to fulfil a task or rise to the challenge when you are only equipped with the wrong tools feels unfair. Sometimes the tools you have are not in your control.

BOX PUZZLE

Put your hands in the box and attempt to solve the puzzle before the timer runs out.

When you don't know what it is you are looking for or what you need, facing tough situations can be very frustrating. The right help and advice, at the right time can make all the difference.

HIDDEN MAZE

Attempt to get the ball from the start to the finish of the maze without it falling out of one of the holes.

Navigating tricky systems when you can't see the full picture, means you are more than likely to fail or get stuck. Even when you can see what needs to be done, it doesn't always guarantee success.

SHOOT FOR THE MOON

Try to drop the balls in the holes to score the highest number of points within the time limit.

Sometimes it feels like the rules are rigged against you. No matter how hard you try, the results will never be what you hope for.

BUZZ WIRE

Try to follow the wire without touching the sides to win. If you touch the wire you must go back to beginning and start again.

Trying to find a route through the many difficulties and challenges of struggling against poverty can be like trying to navigate this wire. The convoluted twists and turns of systems and unexpected challenges life throws at you means it can feel like you can never get anywhere, and are always going back to square one.

WHEEL OF MISFORTUNE

Spin the wheel to win or lose.

The struggle against poverty and poor mental health often go hand in hand; one can lead to the other and form a vicious spiral. For many people suffering from poor mental health, every day is like spinning this wheel; you wake up not knowing if it is going to be a good day or a bad day, whether you'll be winning or losing.
